[1]All iStorage products operate with USB 1.1, 2.0 & 3.0 interfaces
[2]Dimensions of datAshur Personal without cap 77.5 x 17.4 x 8.6mm | datAshur without sleeve 78 x 18 x 10.5mm | datAshur SSD without the sleeve 93 x 24.5 x 12.6mm
[3]Supplied with interchangeable heads for UK, Europe, US and Australia
[4]Warranty for SSD 3 Years

Securing the Mainstream

iStorage delivers market leading innovations in portable data storage and digital encryption technology. We provide enterprise and government clients as well as consumers with products that enable them to securely compute, protecting their data, whenever and wherever.

By combining the power of strong, easy to use, authentication and hardware data encryption we provide the highest level of protection available against theft or loss of confidential data.

The iStorage advantage

iStorage solutions are PIN activated, hardware encrypted and extremely easy to use. When sensitive data needs storing or transporting hardware encryption offers the most secure solution.

Connected via USB and secured with an alphanumeric PIN, all iStorage devices are ultra-secure and platform independent.

Request a free evaluation

iStorage products are used extensively by government departments, financial institutions, utility and energy companies as well as countless multi-national organisations.

To find out why such companies trust iStorage with their valuable and sensitive data, request a no-obligation product evaluation from iStorage.
